### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The rejection based on Hammond et al '496 is withdrawn because of the certified English translation of the priority document submitted on 5/16/05. Therefore, the prior art of record fails to disclose all the limitations of a semiconductor device structure recited in the base claims, including the combination of the structure comprising: a cap layer, a channel region and an under-channel region provide in a semiconductor layer **between** a source region and a drain region in a descending order from an interface with a gate insulator, **the under-channel region being of a second conductivity type; the cap layer and the under-channel region, each having a larger band gap than the channel region; and a bias electrode member applying a voltage to the under-channel region and being capable of applying the voltage independently of the gate electrode.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phat X. Cao whose telephone number is 571-272-1703. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on 571-272-1705. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
